ON VACUUM

TRAINING

3–5.5.2017

Fondarex regularly organizes training sessions on vacuum technology, vacuum applications and how to use and maintain vacuum systems.

Training sessions meet the interests and needs of participants, whether they are operators, service staff, die designers, engineers or managers.

Please contact us if you are interested in attending our upcoming training course, held at our premises in St-Légier, in English.

We are looking forward to welcoming you soon.
